

A.D.A.M SA seeks to appoint a

LabVIEW Software Engineer

A.D.A.M SA (Applications of Detector and Accelerators to Medicine) is working on the R&D and production of accelerators for medical applications. It is a research company, inspired by CERN and a subsidiary of Advanced Oncotherapy plc. A.D.A.M SA is head-quartered in Meyrin/Switzerland and its laboratories are based at CERN. A.D.A.M SA is involved in a hadron cancer-therapy project to build the linear proton accelerator LIGHT (Linac for Image Guided Hadron Therapy). LIGHT's proton energies range from 70 MeV to 230 MeV and its beam properties are ideally suited for the effective treatment of cancerous tumors. We are aiming to provide a clinically superior and cost-effective alternative to conventional radiation therapy solution, ensuring that clinicians and patients have choices, and that proton therapy is available more widely. More information on A.D.A.M. SA can be found on www.adam-geneva.com and www.avoplc.com.

The successful candidate is expected to integrate accelerator subsystems into the LIGHT control system using LabVIEW on non-realtime PXIe targets.

Job Description

Responsibilities and tasks

-) gather requirements and elaborate designs to integrate accelerator subsystems
-) follow-up and review external LabVIEW development
-) prepare test cases and to execute commissioning with the integrated subsystems
-) provide documentations such as user manuals
-) develop software applications in LabVIEW

Qualifications

-) have a Master degree in software engineering, computing, electronics or equivalent
-) 2 years of experience in LabVIEW development, preferably object-oriented LabVIEW
-) Very good knowledge of object-oriented programming
-) Good knowledge of software patterns
-) Basic knowledge of version control systems, i.e. git
-) Spoken and written knowledge of English with the ability to draw up technical texts.

Desirable

-) Previous projects to integrate accelerator subsystems
-) 5 years of experience to develop software applications in LabVIEW
-) Handling of digital and analog signals, processing of data acquired via bus-connections or serial interfaces
-) Knowledge of industrial networks, e.g. RS485, Ethernet, Modbus, Profibus, Profinet
-) LabVIEW development on PXI/PXIe targets
-) National Instruments Certifications

ADAM S.A.

11 rue de Veyrot – 1217 Meyrin, Switzerland
REGISTERED IN GENEVA, NO. CH-660.3.156.007-4
T: +41 22 5259 400 E: info@avo-adam.com
avo-adam.com

ADVANCED ONCOTHERAPY PLC

Third Floor, 4 Tenterden Street, London W1S 1TE
REGISTERED IN ENGLAND AND WALES, NO.
05564418
T: +44 (0) 20 3617 8728 E: info@avoplc.com
avoplc.com

What we offer

-) a competitive salary and contribution to healthcare costs
-) 24 days holiday plus the CERN closing days (approx. 6 days per year)
-) career progression through training, development and attendance at conferences
-) a friendly, international working environment with experts in their field
-) the chance to be at the cutting-edge of proton therapy research

Applications

Interested candidates should submit:

-) a cover letter
-) a curriculum vitae,
-) a bachelor's degree certificate or equivalent in a relevant field
-) at a minimum, the names of 2 referees, or two letters of recommendation, and/or employment certificate/s
-) any other relevant certificates, i.e. LabVIEW certificates

by email to the HR Administrator, Sabrina Lagrimosa: sabrina.lagrimosa@avo-adam.com

For further information please email our Group Leader, Control System Roland Moser, roland.moser@avo-adam.com

Job applications open on 15 May and will close on 31 May or until the position is filled.
